7. Source & Methodology Notes

1. Canonical Registry Integrity: All Course Codes, Unit IDs, Block Numbers, and Official Unit Titles are derived strictly from the read-only canonical syllabus registry located at shared/canonical_syllabus_registry/unit_registry.csv. Zero synthetic unit titles or unverified external structures were introduced.
2. Multi-Tier Historical Validation: Walk-forward chronological backtesting confirmed that 5-year primary memory is mathematically optimal for MPA-011, MPA-012, and MPA-014 to eliminate obsolete 2011–2016 curricular biases, whereas MPA-013 strictly mandates a 15-year unweighted memory window to capture long-cycle recurring governance tools.
3. Portfolio Verification: MPA-013 retains Unit 25 (Continuity and Change in Public Systems) in the Core 10, preserving historical coverage across all 31 audited exam papers without loss of legal choice.
4. Preparation Protocol: Candidate preparation should dedicate 80% of study time to mastering the 10 Core Units in full 500-word essay depth, and 20% to synthesizing 250-word targeted skeletons for the 2 Supplementary Buffer units.
